

It has been a frustrating start to the new year with the Elite Filters giving up 6.2% on New Years Day and 2.6% on Saturday. We came from minus 12.2% early in December yet made an acceptable profit for the month so no drama, just the normal losing-day irritation, frustration, exasperation....

As I noted on the raceday messages on both days (*when explaining no Larry's Best*), there were clear and present dangers to our top raters - unfortunately they were the winners in most cases.

A couple of those were 20/1 winners.

**Maliseet won @ \$21 and El Don @ \$19.** Both in the top three rated and both set up massive multi collects for the Exacta, Trifecta and F4 punters. (\$17k and \$7.8k F4's)

We have got a lot of big ones in recent months and it is good to see some value returning to that form of betting. When one of the obvious chances win, the dividends are way unders but if they miss out the dividends are greater than would normally be expected. A lot of those big-odds winners are no surprise to us.

We include the ALL-Rated list with multi instructions on every raceday message. The Multi-Pro is where the best long-term returns are (12-15 runners) but the basic Elite Pro-Multi can be applied to any rated race.

3x9x9x12 is time-proven to be much, much more effective than boxing a number of runners and hoping to get all four in that box-set.

It is up to each individual to cull or add to the 3x9.... Recommendation. Say 3x6x8x10 or maybe 2x7x9x11, it's your call.

We haven't kept results of the multis for a number of years so can't give any definitive answers as to current strike rates and profits but it would take a lot of losers to use up the \$24k first four collects from Flemington on NY Day especially after a run of big ones before Christmas.

 ie: Top-3 Rated to WIN, ADD next six to those three to make nine for 2nd and third, ADD 3 more to those 9 to make 12 for fourth.

## Elite Money Trail Melbourne

I know some members would have sacked the Money Trail as a viable betting option after its inauspicious start during the spring carnival. If you hadn't been following these bets on Facebook over the past three years you would probably have said "what the hell is this"!

Well since the carnival we have been producing profits and I for one am a real believer that they can add so much value to an Elite punter's portfolio.

A lot of members are always looking for **very high strike-rate selections** so they can confidently apply parlay or all-up bets without many serious runs on outs.

## 60% Winners and 60% net Profit

**What if I said that, within the Money Trail, there is pure gold where each bet has a 2/1 ON chance of winning yet averages 6/4?**

**Yes, there are easily-definable qualifiers that are winning nearly 66% of the time yet are averaging \$2.50. They are PLACING at better-than 80% @ \$1.43 average place div.**

Just FOUR rules need to be applied to the Money Trail qualifiers:

- AM Odds must be less than \$3.00
- Must not be "High-Risk" as listed in the Master Data Mel spreadsheet
- Must carry 60kg or less
- City Races only.

Here is a printout of these qualifiers for 2017 to now. [Money-Trail-MEL Absolute Best for All-Ups pdf](#)

Below is a snippet showing 2019 alone.

We starting providing the Money Trail qualifiers to all Elite members for a trial period from October 1<sup>st</sup> 2019. The free trial is still ongoing.

Here are the **Melbourne pre-live statistics** (2017 to Sept 2019) for the high strike-rate concept v's Live from Oct 1<sup>st</sup> 2019.

*(As previously explained, Sydney Money-Trail is still being evaluated because we do not have any real-time Facebook data going back pre-live).*

Most punters are programmed to bet the place only if you can get 4/1 or better. Most punters lose. Astute punters know the value of **betting the place** on high strike rate selections that are much shorter, I agree with Don Scott on that one.

**Any parlay punter will see the opportunity that has presented itself here.**

I will work on this and study all-up wins (doubles, maybe trebles) and all-up place betting (maybe trebles, quads).

**I am positive that a simple straight-out bet plus a win double and place treble regime will be extraordinarily profitable. After all, you will be betting on Elite Rated horses that are favourite and have the “right money” seal of approval.**

More to come...
