

Elite Money Trail Melbourne

Firstly, apologies for the heading on yesterday's newsletter. Some words were cut instead of copied so the single word "..Where?" made no sense.

Anyway, I have made a lot of progress in exploring the all-up win and all-up place possibilities of the very high strike-rate Money Trail qualifiers as presented yesterday.

Before we go any further, I left the no apprentice claimers rule out:

- AM Odds must be less than \$3.00
- Must not be "High-Risk" as listed in the Master Data Mel spreadsheet
- Must carry 60kg or less
- City Races only.
- No bet if claiming apprentice.

I have uploaded an interactive spreadsheet and several pdf results printouts to the [Money Trail page online](#):

They are:

[Money Trail All-Ups](#) Excel Interactive

[Money Trail Level 3.0% Bets](#) Pdf (Level 3% Bets)

[Money Trail All-Up WIN Doubles](#) Pdf

[Money Trail All-Up WIN Trebles](#) Pdf

[Money Trail All-Up PLACE Trebles](#) Pdf

[Money Trail \\$100 WIN, \\$100 Win Doubles and \\$100 Place Trebles](#) Pdf

The spreadsheet allows users to change bet sizes/ percentages and change from win double all-ups to win treble all-ups etc.

Here are a few pointers for the Excel Interactivity.

Level WIN Betting

The Level Stake win section allows you to change the bet size. In this example \$100 bets size is chosen.

You can also enter your preferred maximum bet percentage to suit. It is set at 3.0% in this example which is quite conservative for a plan that strikes at 63%. The Calculated bank will adjust to show the recommended bank for the bet set up that you choose.

When you change a preference all the data and the statistics at the bottom are instantly updated.

J	K	L	M
100			
Enter Max Win Bet %		3.00%	
Level Win Bet			Calculated Bank
Lev Bet	Lev Ret	Lev Profit	3333
100	290	190	3523
100		-100	3423
100	270	170	3593
100	310	210	3803
100	270	170	3973

WIN All-Up Betting

With the Win All-Ups you can choose Doubles or Trebles analysis. Simply type "T" into the N3 box for Trebles and then all the data will show all-up trebles.

If you leave it blank or type anything else, the analysis will show the All-Up Doubles data.

You can change your preferred max bet% for doubles and Trebles all-up betting.

Win Trebles

N	O	P	Q	R	S
100					
T	Enter "T" here for Treble Data				
Max Double %		2.00%	Max Treble %		1.50%
Level Win All-Up Doubles (or TREBLES if "T" above.					Calculated Bank
Win Double Ret	Win Double Ret	Win Double Ret	Win Treble Ret	Win All-Up Prof	6667
100	290			-100	6567
100				-100	6467
100	270	837	2260	2160	8627
100	310	837		100	8527

Win Doubles

N	O	P	Q	R	S
100					
	Enter "T" here for Treble Data				
Max Double %		2.00%	Max Treble %		1.50%
Level Win All-Up Doubles (or TREBLES if "T" above.					Calculated Bank
Win Double Ret	Win Double Ret	Win Double Ret	Win Treble Ret	Win All-Up Prof	5000
100	290			-100	4900
100				-100	4800
100	270	837		737	5537
100	310	837		737	6274
100	270			-100	6174
100				100	6074

All Up Place Trebles

Same deal for Place Trebles.

T	U	V	W	X	Y
100					
				Max Place Treble %	2.50%
Level Place All up Trebles					Calculated Bank
PLACE Treble Ret	Place Treble Ret	Place Treble Ret	Place Treble Ret	Place Treble Prof	4000
100	170			-100	3900

Totals

To the far right you will see a Total section where all of the data from whatever you input will be totalled.

Z	AA	AB	AC
300			
Totals			Calculated Bank
Total bet	Total Ret	Total Profit	12333
300	290	-10	12323
300		-300	12023
300	1506	1206	13229
300	1489	1189	14418
300	504	204	14622
300	203	-97	14525
300	896	596	15121

At the bottom of the excel page you will see Statistic boxes for all options. These update with every change in preference of filter applied.

Here is the Win Bet Stat box.

Level Win Betting		
Bets	Won	S/Rate
112	71	63.4%
\$ 2.518	Ave Div	
Level Place Betting		
Bets	Placed	S/Rate
112	91	81.3%
\$ 1.435	Ave Div	

Summary

We have showed you where the absolute strongest (extremely high strike-rate) Money Trail bets are. We have covered many options as to how to best profit from them.

The Win All-Up Trebles make the most money but the strike rate is low and there can be long runs of many months where you tread water or even go backwards.

To my eye, the best way to take advantage of this information is to:

- Allocate a level win bet on all qualifiers
- Allocate a win all-up double bet. Each qualifier starts a new all-up win double where the return is put onto the next qualifier.
- Allocate an all-up place treble bet. Each qualifier starts a new treble, the first return is put on the next qualifier and the second return goes onto the third qualifier. Follow the spreadsheet or pdf results to get the idea.

On the pdf printouts you will see all the bets and stats for each betting option.

Here is a snippet from **the last page of the Totals pdf list of results** showing the end results of my suggested betting using \$100 on the win bets, \$100 All-Up Win Doubles and \$100 all-up place trebles.

I am no expert on all-up betting so can't give further instruction there.

There is money to be made there and it doesn't matter if you are not into all-ups. You can still expect solid long-term profits from the win bets.

Delve into the pdf printouts (or better still the spreadsheet) and you will soon work out if this type of low action / high strike rate betting is for you.

Regards, Larry
