

## Mel Multi Strategies

We are really getting somewhere with the multiple betting strategies that we were discussing last week.

There's been plenty of feedback with good suggestions and **I will provide an update in a day or two.** With a few simple filters we have doubled the profit rate. Watch this space.

## InForm Perth

Some members are experiencing difficulty in classifying the Perth races in order to apply the InForm Strategy rules.

The races seemed to be described with extra information last Saturday. For example: race 3 was described as a **3-year-old handicap** which is normal but the extra info (3yo Hcp 62+) was something we hadn't seen before and therefore did not allow for in the rules.

**For the purposes of the InForm Strategy plan, 2yo races and 3yo races are not subject to BM rating restrictions**

Similarly with race 2. It was a 2ys+ One Metro Win Handicap. That's all we needed to classify it as a Hcp 1MW but the extra bracketed info (Grad Hcp 60+) made it unclear as to whether this should be treated as BM 60 race.

By the way, 2ys+ does not mean 2yo race it means 2yo and over.

**To prevent any further confusion, I will provide, on race morning, a list of the upcoming races with their InForm Strategy classification.**

This has to be done well before the ratings are available so it can't contain the actual horse names and final qualifiers.

You can easily apply the rules in a couple of minutes when the ratings come through.

The list will be included on the InForm current raceday page (online and App)

When the selections come through, the following rules are applied **in order**:

1. City Meetings only (Ascot, Belmont)
2. Exclude 3yo races if distance >1300m
3. Exclude 2yo races.
4. After applying Rule 2 and 3, all other \$200 Specials qualify
5. Exclude 1MW (one metro win) if dist longer than 1300.
6. Exclude all 0MW (one Metro win) races.
7. Exclude Benchmark races less than 78
8. Exclude Less than seven starters
9. All others are OK

\$200 “Specials” that qualify (Rule 4) get a \$200 bet regardless of the classification. Other qualifiers in races less than 1400m get \$150 and Qualifiers in races >=1400m are allocated \$100.

This is how Saturday’s set ended up:

Kaptain Kaos \$150,  
 Some Sort \$200 and  
 Clairvoyance \$200.

The six top-rated winners in Perth took the top-rated win tally to 12 for 24 for Mel-Syd-Perth on Saturday.

4-8 Syd for \$810 net \$100 lev stakes profit

2-7 Mel + \$235

6-9 Perth + \$540

12-24 + \$1,585

Of course, backing every top-rater is not an Elite strategy but it is a good test of ratings accuracy!
