

## Platinum Analysis

Further to Monday's newsletter, we are pleased to say we have completed the Platinum analysis and resultant enhancements that will take this already-powerful plan into 2022.

I am so glad that we went the extra mile and didn't sit back and admire the 70%+ capital gain that it has made so far. We are acutely aware that some newer members have not seen the plan perform like the early birds have.

We spotted several obvious opportunities to straighten the plan up, iron out those problematic periods that October/November threw at us as well as strengthening with so far untapped Sydney Combo input.

The analysis the other day was comprehensive but it was based on the **actual live** performance. That was to enable double-checking/auditing by all members.

However, you are aware that the spring review came up with enhancements to all strategies. Refer to newsletter dated October 27th. It included full details as well as printouts so you could compare the original strategies to their version #2 (ver2)

All we needed to do, apart from collating all the data from the ver2 strategies that contribute to the Platinum, is to rethink the Sydney contribution.

The **Syd Combo bets** were not contributors to the original Platinum concept because Sydney was under review at that time and we needed to follow the Syd Combo results in real life after the Sydney rejig. In other words, Syd Combo had to earn its stripes to be part of the Best of the Best (Platinum).

Sydney Ratings and Combo bets have been outperforming all services in recent times and should have equal input to the Platinum strategy.

We have worked out a powerful way to tap into the Sydney Computer System contributors (*that we already harness for Platinum contributions*) and the Syd Combo qualifiers. This cross-referencing between two very strong Sydney resources allowed us to source valuable Best of the Best contributors.

We have made adjustments to bet sizes. For example, we opted to keep Adelaide \$200 A bets as contributors but have maxed their Platinum bet at 1.0% at this stage.

That's the background but all you really need to do is sit back and bet the Platinum with even more confidence.

From this Saturday, this how the raceday image will look:

						
Time	Track	Race	TAB	Selection	Source/s	% of Bank
12:30 PM	Flemington	1	3	Tooradin	M-X MS MC	2.5
1:17 PM	Morphettville	2	2	Alleboom	M-X AA	1.0
2:55 PM	Flemington	5	2	Ayrton	M-X MS	2.0
3:15 PM	Kembla Grange	7	10	Big Parade	SCS	1.0

5:05 PM	Morphettville	8	9	Lombardo	M-X AA	1.0
5:15 PM	Kembla Grange	10	4	Love Tap	SCS	1.0
5:40 PM	Morphettville	9	8	Impossible Action	AA	1.0
<b>Contributors' Abbreviations:</b>						
<b>"MS"</b> = Mel Computer Sys, <b>"SCS"</b> = Syd Computer/Combo Sys, <b>"MC"</b> = Mel Combo, <b>"M-X"</b> = Metro Express, <b>"AA"</b> = ADL A Bets						
<a href="http://www.eliteracing.com.au">www.eliteracing.com.au</a>						
<b>Saturday, 11 September 2021</b>						

The abbreviations are to identify where the Platinum qualifier was sourced from.

In this example, Tooradin was nominated by three contributing services. Alleboom, Ayrton and Lombardo had two nominating strategies and the others were from 'lone' contributing strategies.

"MS"= Mel Computer System.

"SCS"= Syd Computer/Syd Combo System

"MC" = Mel Combo

"M-X" = Metro Express

"AA" = ADL A Bets

**It is not important to understand or even take any notice of the abbreviations.**

They are there because some members will want to identify where the qualifier came from and, if it had multiple contributors, what those contributors were.

## Stats and Analysis

We will repeat the analysis format that we presented the Platinum "Live" analysis earlier this week. Ie: \$100 level stakes analysis first.

Note: The following analysis is for all of 2021, not just July-Nov 'live period.

### Platinum 2022 : Analyse Contributing Plans \$100 LEVEL Bets

### Platinum performance for 2021

Keep in mind that regardless of how many contributing strategies, a horse only gets one single Platinum bet.

This is the summary of those single Platinum bets.

The bet sizes range from \$100 to \$250. Therefore the bet count and the amount will not tie in with the \$100 level stakes analysis above.

### Platinum 2022: Actual Bet Size Summary. One Single Platinum Bet per Race

Jan 2021 to Nov 2021	Bets	Won	S-Rate	Ave Odds	AS Listed Bet Size	Return	Profit	WIN % Profit

**Q: So what does all the above mean?**

A: Very little insofar as the raceday operation of the Platinum strategy. However, under the bonnet there is a smoother, bigger and more powerful motor.

**Q: I have seen the updated plan called Platinum 2022, Platinum Ver 3 and Platinum Current Algorithm. What's the difference?**

A: NONE. They are all one and the same. Our main aim was to get the updated information and direction to you asap. We will settle on one name and change all references in pdfs and spreadsheets etc soon. Platinum V8 would be the most suitable but it will probably be Ver3.

Regards

Larry and Richard
