Saturday Wrap

It was a good day at the office again on Saturday.

The **Platinum** strategy is now \$1050 in front for December and **Metro-Express** is doing even better with \$1290 net profit so far.

Mel Combo had one bet for one winner at \$4.50 (Scorched Earth). *Advising by newsletter on Friday that we are taking the colour-code qualifiers out of the Mel Combo paid immediate dividends.*

The **Mel Ratings** were spot on:

SYD Pro Strategy

Last week we provided an analysis of the Mel Pro-Strategy bets as listed on each raceday pro-sheet. A quick look at Sydney reveals even greater level stakes profit. This season a level \$100 bet on every pro-strategy qualifier in NSW has made more than **\$9,060 net profit**. The ratings are very accurate there and we will look into this a little deeper early next year when time permits.

Elite- Suite

Taking your Platinum membership to a new level.

Many members want to take advantage of the profitability of the main strategies but prefer to bet from ONE bank.

We have developed an algorithm to bet the entire Elite-Suite of strategies with a SINGLE Bank.

- ALL Platinum Qualifiers.
- ADD Metro-X qualifiers that were not originally transferred to Platinum for consideration. (ie: less than \$200 Metro-X).
- ADD Elite Combo Mel qualifiers that were not originally transferred to Platinum for consideration. (ie: less than \$150). No Colour-Code input and only Top-Raters.
- ADD Syd Combo qualifiers that were not originally transferred to Platinum for consideration.

If a horse becomes a dual or treble qualifier in the Platinum Strategy, the algorithm will work out a single bet amount for that horse.

I have uploaded the spreadsheet for those who want to analyse the bets, rejects, and bet sizes. [Elite Suite Excel Spreadsheet](#)

We will do it all for you!

Each raceday from Jan 1st 2022, where at least one of the strategies is active, we will upload a list of the Elite-Suite qualifiers to the Platinum members page. It will be emailed to Platinum members as well.

Elite-Suite Advantages

- One Bank covers all strategies from all Elite Racing services.
- No need to back same horse multiple times.
- Simple, all the work is done this end...ready to bet.
- More profit than all the other live or projected options above BUT the maximum bet size is 40% less and the average bet size is 25% smaller.

2022 Income Projections

Many members are deciding which options would best suit going into 2022. The majority are opting for the Platinum package which includes the complete Elite Suite of services.

To help with that decision, we have developed 2022 Elite Income Projections. It includes income forecasts based on:

- **ACTUAL as-listed live betting of the main plans**
- **Projections based on the current algorithms**

With the 2022 income projections and the one-bank-fits-all “Elite-Suite”, members who are serious about winning can plan for the long term with clear expectations and unprecedented confidence.

Firstly, we must look at what has actually happened in real time.

Table 1A

Here we list the five main strategies, each with their own bank. We have assumed a \$10k bank in all examples.

The total bank of \$50,000 has produced \$21,930 net profit on the bets as listed on race-morning. Extrapolate the 4.5-month period result over 12 months and you get just north of **\$58,000** net profit for the entire 2022 calendar year. That is \$1,125 per week.

\$10k Bank (for each Plan). NET Profit Analysis						1A
Live As-Listed Profit 2021-2022 Season so far						
\$10,000 Bank Each Plan	Platinum	Metro Express	Adl A	Mel Combo Inc C-Code	Syd Combo	Total
\$10k Bank for each	\$10,000	\$10,000	\$10,000	\$10,000	\$10,000	\$50,000
Profit As Listed This Season	9759	5909	-540	4381	2421	21930
Projection for 2022	26024	15757	-1440	11683	6456	58480
Per Month	\$2,169	\$1,313	-\$120	\$974	\$538	\$4,873
Per Week	\$500	\$303	-\$28	\$225	\$124	\$1,125

Most members would not be investing \$50,000 to back their bets on these plans.

Table 1B

Here we assume a member has a total of \$10,000 to invest and wants to back as many of the plans as possible.

These as-listed results are the worst-case scenario because our current algorithms are much more profitable.

We will assume no commitment to Adelaide in line with recommendations explained in the prospectus and newsletters back in June and July. The reasoning was that if anyone wanted to optimise their total financial commitment, the first plan to go would be the ADL bets, most of which are in the Platinum anyway.

Here is a common split ratio for a \$10,000 total investment.

- Platinum \$4,000
- Metro-Express \$3000
- Syd-Mel (All bets from one Bank) \$3000

A member applying that ratio for the season so far has made **\$7,717 net profit**.

Project that over a full 12 months and the expectation would be for about \$20,578 net profit in 2022. That assumes that the bets are not increased as the bank grows.

\$10k Overall Bank NET Profit Analysis					1B
Live As-Listed Profit 2021-2022 Season					
Strategy	Platinum	Metro Express	ADL A Bets	Mel And Syd Combo	Total
Allocation of \$10k Total Funds Bank	\$4,000	\$3,000	nil	\$3,000	\$10,000
Profit: As Listed This Season	3904	1773	0	2041	7717
Projection for 2022	10410	4727	0	5442	20578
Per Month	\$867	\$394	\$0	\$453	\$1,715
Per Week	\$200	\$91	\$0	\$105	\$396

Not bad for our worst-case scenario.

Table 2A and 2B

We have done exactly the same exercise using the current algorithm for each strategy.

Of course these figures are largely theoretical as against the live data above but they are the product of the stronger algorithms now in place applied to the actual data on each race morning.

\$10k Bank (for each Plan). NET Profit Analysis						2A
CURRENT Version Profit 2021-2022 Season so far

Per Week	\$839	\$348	\$103	\$401	\$511	\$2,202

\$10k Overall Bank NET Profit Analysis					2B
CURRENT Version Profit 2021-2022 Season so far					
Strategy	Platinum	Metro Express	ADL A Bets	Mel Combo (No C-Code)	Total
Allocation of \$10k Total Funds Bank	\$4,000	\$3,000	nil	\$3,000	\$10,000
Profit this season so far	6542	2037	0	5336	13916
Projection for 2022	17446	5431	0	14230	37108
Per Month	\$1,454	\$453	\$0	\$1,186	\$3,092
Per Week	\$336	\$104	\$0	\$274	\$714

As to be expected, the current algorithm figures projections are better than the already-fantastic live figures but I am very confident that the end result for 2022 will be at least somewhere between the live projections and the current algorithm projections.

All of the above require the operation of multiple banks. Sometime the same horse comes up in more than one plan. If that is not your cup of tea I am sure the following will be of great interest.

Conclusion

The majority of members have already structured their memberships to Platinum level.

I do not want to be melodramatic but I cannot overemphasize the importance of setting your membership up to Platinum. That includes Mel, Syd, Adl, Metro-X free.

Elite Platinum membership is simply a **must-have** for any member who wants the ultimate opportunity to make an excellent income from this investment in 2022 and beyond.

And it is cheaper than big name opposition services who charge \$230+ per month for Mel Ratings alone!

2021 has been amazing and we hope you are looking forward to 2022 with as much enthusiasm as we are!

Regards

Larry and Richard
