Algorithm Upgrades

We are very happy that the new algorithms for Metro Express, Platinum and Elite-Suite have started so well. Early days but there is certainly a much better look and feel to each raceday set of bets.

It is interesting to compare the old and the new over the six race days covered during April. Three with the old algorithms and three with the new (from April 23rd).

Metro-Express April

Pre April 23:

12 bets, 2 won. Bet \$1450, Return \$1758, Profit + \$308 (+ 21%)

New Algo:

5 bets, 2 won. Bet \$700, Return \$940, Profit \$240 (+34%)

Platinum April

Pre April 23:

11 bets, 2 won. Bet \$1750, Return \$723, Profit – 1,028 (- 59%)

New Algo:

7 bets, 3 won. Bet \$1100, Return \$2040, Profit \$940 (+85%)

Elite-Suite April

Pre April 23:

11 bets, 2 won. Bet \$1500, Return \$770, Profit – 730 (- 49%)

New Algo:

11 bets, 5 won. Bet \$1460, Return \$2438, Profit \$978 (+67%)

After such a poor start to April, it is very satisfying report a profitable month overall for Elite-Suite, Metro-Express and Mel and Syd Combo.

We went close to getting Platinum back from the \$1028 deficit but fell \$88 short.

Larry and Ric.
