

Hello from Elite,

At this time of the month we all get that monthly report from our bookies.

This one arrived this morning. It is one of my many small accounts and shows the past six months betting with them.

Of course, having many bookie accounts and betting on various strategies means the profits with one isolated account cannot be lined up with any specific strategy but the bets are all sourced from Elite raceday information.

The bottom line for this bookie is:
Bet \$12,405, Return \$17,885, Profit \$5,480.

That's 45% profit on turnover for the past six months!

This summary is typical of Elite punters - consistently winning in real time.

The point of this story is that I find it highly insulting to get bombarded with warnings like "What's gambling really costing you..." "You bet, you lose..." etc.

Our warning to bookies: "If you bet with Elite punters you will lose!..."

Right! That's off my chest so let's look forward.

Nice profits last weekend (+ \$525 for E4, +\$360 for the Mel/Syd Combo and Nationwide added \$265 profit for the week).

Action tomorrow in Mel, Syd, Bris, Adl and Perth. May the bookie carnage continue!

Regards

Larry
